

The Portrait of Eloise Leclair

by Erik Richter

"Brilliant page-turning excitement!" - Goodreads Review

When Parisian art restorer Amelia Beckett uncovers hidden clues in a seemingly ordinary heirloom, she's thrust into an 80-year-old mystery of lost masterpieces and wartime secrets. Inspired by true events, this dual-timeline novel moves between Nazi-occupied France and modern-day Paris, blending historical drama with clever puzzles, romance, and thrilling suspense. *Perfect for fans of Kate Morton, Dan Brown, and Kristin Hannah.*

Erik Richter is a local author from Merton, WI, whose debut novel was inspired by real cases of Nazi-looted art and a chance find in a Parisian flea market.
